IT'S THRILL TIME CHAMPIONSHIP
"Double Figure 8 Races"
RAIN or SHINE

JM Motorsport Productions developed this form of action racing by using compact cars to enhance excitement for both drivers and spectators. Utilizing smaller, lightweight cars takes on all the excitement of a full-sized Figure "8" without likely danger to the drivers. Speeds average between 5 and 15 miles an hour and only 5 to 8 cars are allowed at a time. Unlike the traditional brute-force demo, in this event it is your ability to out-think and out-maneuver the other driver that makes you the WINNER! Because of its challenge, drivers all over are switching to FIGURE 8 RACING. With strict guidelines/rules and the help of the drivers, we have made this race fun and fair for all!

WORLD’S LARGEST DEMOLITION DERBY
2017 NORTHEAST FAIR - INSIDE FUEL TANK OPTION for 6 and 8 cylinder cars only, using rule sheet #1.
JMMP has recommended stock fuel tanks for over 40 years, based on our experience of overall safety.
(ALL NASCAR DIVISIONS HAVE OUTSIDE FUEL TANKS)

An alternate fuel tank **MAY** be installed with the following provisions adhered to:

- The stock fuel tank must be removed from the car if you are installing an inside tank.
- The car must use an approved type of portable fuel tank. A fuel tank used with outboard marine engines is acceptable.
- No** stock tanks will be permitted inside the car. If you have a plastic marine tank, it must be placed in a solid steel case!
- The tank must be mounted on a solid, flat surface located in the center of the rear seat area. Tank must be reinforced, providing its not reinforcing any other part of the car. In other words build a cage that does not mount to the frame, sides or rear of the vehicle. Bracing is permitted 2 feet back from the driver’s seat or the tank maybe mounted on a solid, flat surface located directly above the rear axle.
- The tank must be securely mounted to the car body by at least two steel straps. **NO** rubber tie-downs permitted!
- The mounted fuel outlet fitting on the marine tank cannot be changed. No inline fuel filters inside the drivers compartment.
- The tank will not be allowed if fuel runs out when the outlet line is disconnected or when the tank is inverted.
- If any gas is spilled in your car, it will not be permitted to run.
- The fuel line must run under the floor pan to the fuel pump by using your original gas line or a new rubber Hose, each end must be double clamped. If fuel line is inside it must be inside metal conduit.
- Fuel pump must shut off with ignition switch, it must be located inside fuel tank or under vehicle/hood.
- No more than 3 gallons of gas is permitted.
- If your tank is in the trunk over the rear hump, the rear seat cushion support brackets and all areas designated with an “X” in diagram 2 (below) must be covered with sheet metal or aluminum (firewall) to minimize fumes from entering the driver’s compartment from the trunk area.

JM Motorsport Productions does not imply or guarantee safety. We believe that when a gas tank leaks fuel or fumes, it is safer for them to leak on the track rather than in the car.

"BUCKSHOT" AND POWER WHEELS
DEMOLITION DERBY
SATURDAY JUNE 24th, AT 7:00 PM
TOTAL PURSE \$2,500**

JM Motorsport Productions produces this event with local competitors and regional champions. The vehicles used in this event are a combination of trucks and cars, which are stock, modified and pro modified. This race takes place on the track in front of the grandstand. The course is a one or two lap oval with a large tire at each end of the oval. The race starts on the back stretch, the competitor or competitors approach the end of the back stretch making a 360 degree loop around the right end marker and then down the main straight away. The main straight away features two dirt jumps. Depending on speed, the competitor can jump one or both as they approach the end of the main straight away. Again at the end making a 360 degree loop around the left end marker and then down the back stretch. The back stretch features a single jump to the finish line. Average Track 120' x 300'.
